

* The smurfs token team believes in its project and is convinced that credibility, marketing, and community voting to manage the project lead to success in word and deed.

* In honor of smurfs and our fun childhood we have create a crypto token by the name smurfs token it's symbol SST. second, to create an API that will increase functionality for developers, so they can integrate it with their systems and make the payment process simple. third, to develop a B2E game by the name blueberry through collecting blueberries. fourthly, NFT market to buy and sell smurfs nft and develop it.

* we are dealing with international hyperlink info system company that guarantees high security specially that this game is mining one, and you can read the agreement from the site.

* We develop B2E blueberry game its simple and obvious. (Mining) it's idea that when you buy NFT smurf, you will get daily reward from blueberries according to smurf specifications and you can sell or upgrade it from the smurfs market NFT, that will be launched with the game, with marketing campaign in all communities, to get fixed currency and link between SST and BB to have best success.

max supply 1 billion.

- tokens marketing 100 M vesting 10% every 10 days to ensure strong marketing word and deed for hundred days, starting in november before the game is released. and we have permanent marketing from the tax, with the launch of the project to have various opportunities to attract invesotrs and increase community constantly.

- tokens game 200 M for mining not for supply.

- tokens CEX 100 M it will be for the liquidity of the platforms not for supply, we will be listing on major CEX in Q1 2024, in conjunction with the bull run.

* Presale Investors will gain there tokens in periodic stages for stabilize token price and our future vision

- vesting is 40% as first and after every 10 days it will be 10%

* be sure that smurfs token team has faith in his project and will struggle to reach to success.

- to ensure success of the project you have to know that the team is clear and obvious and close to the community, also you can communicate with us any time to get answers about any question you have.
